CAUTION / VERSIGTIG

WARNINGS

- Do not use on edible crops, foodstuffs or surfaces on which food is handled or stored.
- Keep out of reach of children, uninformed persons and animals.
- Poisonous if absorbed through the skin, swallowed or inhaled.
- Toxic to bees, fish and wildlife.
- Store away from food and feed in cool place.
- May irritate skin, eyes and cause skin sensitization.
- Do not spray electrical switches, sockets or electrical equipment.
- Cover fish tanks and remove pets from areas to be treated.

PRECAUTIONS

- Avoid eye and skin contact and inhalation of spray mist
- Avoid spray drift onto surrounding areas and fish ponds
- Do not apply near food, feed stuffs, drinking water and eating utensils
- Wash with soap and water after use or after accidental skin contact

DIRECTIONS FOR USE

USE ONLY AS DIRECTED

Shake before use

PESTS CONTROLLED

NO INSECT INDOORS is effective against cockroaches, ants, flies, mosquitoes, fleas, bedbugs and spiders.

MODE OF ACTION

Spraying **NO INSECT INDOORS** inside the home will kill insects by contact or ingestion.

NO INSECT INDOORS is a Ready-to-use formulation and must not be mixed with water. Effective coverage is necessary to ensure control. Spray the surface where insects are noticed. Repeat the spray whenever necessary.

USE OF THE TRIGGER SPRAYER

- Shake well before spraying.
- Set the nozzle to the open spray position by turning the tip as indicated.
- Point the nozzle head toward the area to be treated.
- Spray from a distance of 20 -30 cm.
- Squeeze the trigger in a continuous manner while slowly moving the spray along the area to be treated so that the entire surface is covered.

WAARSKUWINGS

- Moet nie op eetbare gewasse, voedsel of oppervlakke gebruik waar voedsel hanteer of gestoor word nie.
- Hou buite bereik van kinders, oningeligte persone en diere
- Giftig wanneer deur die vel geabsorbeer, ingeneem of ingeasem word
- Giftig vir bye, visse en wilde diere
- Stoor buite bereik van voedsel en voer en in 'n koel plek
- Kan vel en oë irriteer en vel sensiteer.
- Moet nie op elektriese skakelaars, sokke of elektriese toerusting spuit nie
- Bedek vistenks en verwyder troeteldiere van area wat behandel gaan word.

VOORSORGMAATREËLS

- Verhoed inaseming, oog- en velkontak van spuitnewel
- Verhoed wegdrywing van die sproei na aanliggende areas en visdamme
- Moet nie naby voedsel, voer, drinkwater en eetgerei spuit nie
- Was met seep en water na gebruik of toevallige vel kontak

GEBRUIKSAANWYSINGS

GEBRUIK SLEGS SOOS AANGEDUI

Skud voor gebruik

PLAE BEHEER

NO INSECT INDOORS is effektief teen kakkerlakke, miere, vlieë, muskiete, vlooië, weeluisse en spinnekoppe.

METODE VAN WEKRING

Die spuit van **NO INESCT INDOORS** binnenshuis sal insekte doodmaak deur kontak of inname.

NO INSECT INDOORS is 'n Gereed-vir-gebruik formulاسie en moet nie met water gemeng word nie. Spuit oppervlates waar insekte opgemerk word. Goeie bedekking tydens bespuiting is noodsaaklik vir goeie beheer. Herhaal bespuiting indien nodig.

GEBRUIK VAN DIE SNELLERSPUIT

- Skud goed voor gebruik.
- Herhaal die skudproses elke 1 - 2 minute gedurende die spuitproses.
- Stel die spuitpunt na die oop posisie soos aangedui deur dit te draai.
- Rig die spuitpunt na die area wat behandel moet word.
- Spuit vanaf 'n afstand van 20 - 30 cm.

- Druk die sneller aanhoudend terwyl die spuit stadig, langs die area wat behandel moet word, beweeg tot die totale oppervlak bedek is.
