- **PREVENT CONTAMINATION OF FOOD, FEED, DRINKING WATER AND EATING UTENSILS.**
- For good occupational hygiene, wear gloves during mixing/loading activities and when applying by hand.
- May cause eye irritation. Avoid contact with eyes.
- Empty container completely before disposal.
- Destroy the empty container.
- Do not re-use the container for any other purpose.

Although this remedy has been extensively tested under a large variety of conditions, the registration holder does not warrant that it will be extensively tested under a large variety of conditions, the registration holder does not warrant that it will be efficacious under all conditions; quality of dilution water, compatibility with other substances not indicated on the label and the occurrence of resistance of the pest against the remedy concerned, as well as by the method, time and accuracy of the application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment, or harm to man or animal or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

## **DIRECTIONS FOR USE**

**USE ONLY AS DIRECTED**

### **Application:**

Scatter the pellets on the soil, around or close to the plants you would like to protect against snails.

Scatter evenly and do not heap the pellets.

Apply onto moist soil, with no standing water.

Re-application is required every three weeks or as the bait is consumed by snails or slugs.

More regular application will be required in areas that get heavily watered or after experiencing long periods of rain.

Snails and slugs are most active during the night or early mornings. Apply EFEKTO ZERO SNAIL pellets in the evening or late afternoon for best results.

1kg of EFEKTO ZERO SNAIL pellets will cover 1000 m<sup>2</sup> (10g on 10 m<sup>2</sup>)
